Partner With Casey Trees
Casey Trees believes that our city is better because of trees and that all who live, work, or visit the District need access to nature. Trees provide environmental, health, and economic benefits, making them vital to the District’s future.

Our Partnership Pillars

- **COMMUNITY**
  
  Communities are strengthened when they can come together to plant trees and take care of a shared space.

- **EQUALITY**
  
  Every person deserves equal access to healthy green spaces for their mental and physical wellbeing, no matter where they live.

- **RELIABILITY**
  
  For the last two decades we have served DC residents by facilitating a sense of community and providing green spaces for communal benefit.

- **SUSTAINABILITY**
  
  Development is inevitable in an urban landscape, but trees must continue to be preserved and protected in the name of sustainable growth.

- **COLLABORATION**
  
  Casey Trees would not be able to plant and care for the city’s trees without the physical support of volunteers and monetary support of donors.
